**EARNINGS PRESENTATION**

# Legal Disclaimer

## IMPORTANT NOTICES

The inclusion of references to P10, Inc. (the "Company") in this presentation is for information purposes only as the holding company of various subsidiaries. P10 does not offer investment advisory services and this presentation is neither an offer of any investment products nor an offer of advisory services by P10. By accepting this presentation, you acknowledge that P10 is not offering investment advisory services. All investment advisory services referenced in this presentation are provided by subsidiaries of P10 which are registered as investment advisers with the U.S. Securities and Exchange Commission ("SEC"). Accordingly, this presentation may be considered marketing materials, in which event it would be marketing materials of each registered investment adviser subsidiary only. To the extent you have any questions regarding this presentation, please direct them to the applicable subsidiary. Registration as an investment adviser does not imply any level of skill or training. This presentation does not constitute an offer to sell, a solicitation of an offer to buy, or a recommendation of any security or any other investment product. Any securities described herein have not been recommended by any U.S. federal or state or non-U.S. securities commission or regulatory authority, including the SEC. Furthermore, the foregoing authorities have not confirmed the accuracy or determined the adequacy of this document. Any representation to the contrary is a criminal offense. Nothing herein is intended to provide tax, legal or investment advice.

## CAUTION REGARDING FORWARD-LOOKING INFORMATION

Some of the statements in this presentation may constitute "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, Section 21E of the Securities Exchange Act of 1934 and the Private Securities Litigation Reform Act of 1995. Words such as "will," "expect," "believe," "estimate," "continue," "anticipate," "intend," "plan" and similar expressions are intended to identify these forward-looking statements. Forward-looking statements discuss management's current expectations and projections relating to our financial position, results of operations, plans, objectives, future performance and business. The inclusion of any forward-looking information in this presentation should not be regarded as a representation that the future plans, estimates or expectations contemplated will be achieved. Forward-looking statements are subject to various risks, uncertainties and assumptions. Forward-looking statements reflect management's current plans, estimates and expectations and are inherently uncertain. All forward-looking statements are subject to known and unknown risks, uncertainties and other important factors that may cause actual results to be materially different, including risks relating to: global and domestic market and business conditions; successful execution of business and growth strategies and regulatory factors relevant to our business; changes in our tax status; our ability to maintain our fee structure; our ability to attract and retain key employees; our ability to manage our obligations under our debt agreements; as well as assumptions relating to our operations, financial results, financial condition, business prospects, growth strategy; and our ability to manage the effects of events outside of our control. The foregoing list of factors is not exhaustive. For more information regarding these risks and uncertainties as well as additional risks that we face, you should refer to the "Risk Factors" included in our annual report on Form 10-K for the year ended December 31, 2022, filed with the SEC on March 27, 2023, and in our subsequent reports filed from time to time with the SEC. The forward-looking statements included in this presentation are made only as of the date hereof. We undertake no obligation to update or revise any forward-looking statement as a result of new information or future events, except as otherwise required by law. The forward-looking statements included in this presentation are made only as of the date hereof. We undertake no obligation to update or revise any forward-looking statement as a result of new information or future events, except as otherwise required by law.

## CAUTION REGARDING FINANCIAL AND OPERATING PROJECTIONS

All financial and operating projections, forecasts or estimates about or relating to the Company included in this document, including statements regarding pro-forma valuation and ownership, have been prepared based on various estimates, assumptions and hypothetical scenarios. Forecasts and projections of financial performance, valuation and operating results are, by nature, speculative and based in part on anticipating and assuming future events (and the effects of future events) that are impossible to predict and no representation of any kind is made with respect thereto. The Company's future results and achievements will depend on a number of factors, including the accuracy and reasonableness of the assumptions underlying any forecasted information as well as on significant transaction, business, economic, competitive, regulatory, technological and other uncertainties, contingencies and developments that in many cases will be beyond the Company's control. Accordingly, all projections or forecasts (and estimates based on such projections or forecasts) contained herein should not be viewed as an assessment, prediction or representation as to future results and interested parties should not rely, and will not be deemed to have relied, on any such projections or forecasts. Actual results may differ substantially and could be materially worse than any projection, forecast or scenario set forth in this document. The Company expressly disclaims any obligation to update or revise any of the projections, forecasts, models or scenarios contained herein to reflect any change in the Company's expectations with regard thereto or any changes in events, conditions or circumstances on which any such statement is based.

## FEE-PAYING ASSETS UNDER MANAGEMENT, OR FPAUM

FPAUM reflects the assets from which we earn management and advisory fees. Our vehicles typically earn management and advisory fees based on committed capital, and in certain cases, net invested capital, depending on the fee terms. Management and advisory fees based on committed capital are not affected by market appreciation or depreciation.

## USE OF NON-GAAP FINANCIAL MEASURES BY P10, INC.

The non-GAAP financial measures contained in this presentation (including, without limitation, Adjusted EBITDA, Adjusted Net Income ("ANI") and fee-paying assets under management are not GAAP measures of the Company's financial performance or liquidity and should not be considered as alternatives to net income (loss) as a measure of financial performance or cash flows from operations as measures of liquidity, or any other performance measure derived in accordance with GAAP. A reconciliation of such non-GAAP measures to their most directly comparable GAAP measure is included later in this presentation. The Company believes the presentation of these non-GAAP measures provide useful additional information to investors because it provides better comparability of ongoing operating performance to prior periods. It is reasonable to expect that one or more excluded items will occur in future periods, but the amounts recognized can vary significantly from period to period. Adjusted EBITDA and adjusted net income should not be considered substitutes for net income or cash flows from operating, investing, or financing activities. You are encouraged to evaluate each adjustment to non-GAAP financial measures and the reasons management considers it appropriate for supplemental analysis. Our presentation of these measures should not be construed as an inference that our future results will be unaffected by unusual or non-recurring items.

# First Quarter 2023 Financial Highlights

## Strong organic growth drives durable earnings power

- ✓ Fee paying assets under management (FPAUM) were \$21.6Bn, an increase of 23% compared to March 31, 2022.
- ✓ In the quarter, \$911 million of fundraising and capital deployment was offset by \$516 million in stepdowns and expirations.<sup>1</sup>

Financial Results (\$ in Millions)	Three Months Ended		Q1'23 vs Q1'22
	March 31, 2023	March 31, 2022	
Actual FPAUM (\$Bn)	\$ 21.6	\$ 17.6	23%
Pro Forma FPAUM (\$Bn) <sup>(2)</sup>	\$ 21.6	\$ 19.3	12%
<b>GAAP Financial Metrics</b>			
Revenue	\$ 57.3	\$ 43.3	32%
Operating Expenses	\$ 52.4	\$ 31.7	65%
GAAP Net Income	\$ 0.8	\$ 7.8	-90%
Fully Diluted GAAP EPS	\$ 0.01	\$ 0.06	-83%
<b>Non-GAAP Financial Metrics</b>			
GAAP Revenue	\$ 57.3	\$ 43.3	32%
Adjusted EBITDA <sup>(3)</sup>	\$ 28.4	\$ 22.5	27%
Adjusted EBITDA Margin	50%	52%	N/A
Adjusted Net Income <sup>(3)</sup>	\$ 25.5	\$ 22.3	14%
Fully Diluted ANI EPS <sup>(4)</sup>	\$ 0.21	\$ 0.18	17%

### NOTES:

1. For the trailing twelve months, expirations and stepdowns totaled \$1.26 billion. Furthermore, we expect an additional \$830 million in stepdowns and expirations in the remainder of 2023.
2. FPAUM on a pro forma basis assumes the acquisition of WTI was completed as of January 1, 2022.
3. Adjusted EBITDA and Adjusted Net Income are non-GAAP financial measures. Please refer to the Non-GAAP Financial Measures slide for a reconciliation of non-GAAP to GAAP measures.
4. Fully Diluted ANI EPS calculations include the total of all common shares, stock options under the treasury stock method, and the redeemable non-controlling interests of P10 Intermediate converted to Class B stock as of each period presented.

# First Quarter 2023 Highlights

## Key Business Drivers

- ✓ Fee paying assets under management (FPAUM) were \$21.6Bn, an increase of \$4.0Bn, or 23%, when compared to March 31, 2022 actuals.
- ✓ Organic FPAUM<sup>1</sup> grew by \$2.3Bn, or 12%, when compared to March 31, 2022 pro forma FPAUM.
- ✓ Year-over-year revenue growth of 32% was driven by \$911 million of fundraising and deployment.
- ✓ WTI contributed their first full quarter to P10 financials.

## Capital Markets

- ✓ Approved an 8% increase in the annual dividend by \$0.01 to \$0.13.
- ✓ May 15, 2023, declared a quarterly cash dividend of \$0.0325 per share for Class A and Class B stock, payable on June 20, 2023, for holders as of the close of business on May 30, 2023.
- ✓ As of today, we have \$274.8 million in outstanding debt, the term portion of the loan is \$209.8 million and \$65 million as it relates to the revolver. There is \$97.5 million available on the credit facility.
- ✓ April 13, 2023, and May 1, 2023, made a \$3 million and \$10 million debt paydown, respectively.
- ✓ 100,000 shares were repurchased in the quarter at an average price of \$8.51 per share. The stock buyback program has \$18.9 million available.
- ✓ March 31, 2023, Class A shares outstanding were 43,088,962 and Class B shares outstanding were 72,831,689.

### NOTES:

1. Organic FPAUM on a pro forma basis assumes the acquisition of WTI was completed as of January 1, 2022.

# First Quarter 2023 Highlights

## Corporate Governance

- ✓ April 24, 2023, filed 2023 Proxy statement and announced the 2023 Annual Meeting of Stockholders will be held at 4514 Cole Ave, 3rd Floor, Dallas, TX 75205 at 9:00 a.m., local time, on Friday, June 16, 2023 for the following purposes:
  - To elect the following nominees as Class II Directors to serve for a term of three years: David M. McCoy and Robert B. Stewart, Jr.
  - To ratify the selection of KPMG LLP as our Independent Registered Public Accounting Firm for our fiscal year ending December 31, 2023.
  - To transact such other business as may properly come before the meeting or any adjournment thereof.

# Fee Paying Assets Under Management

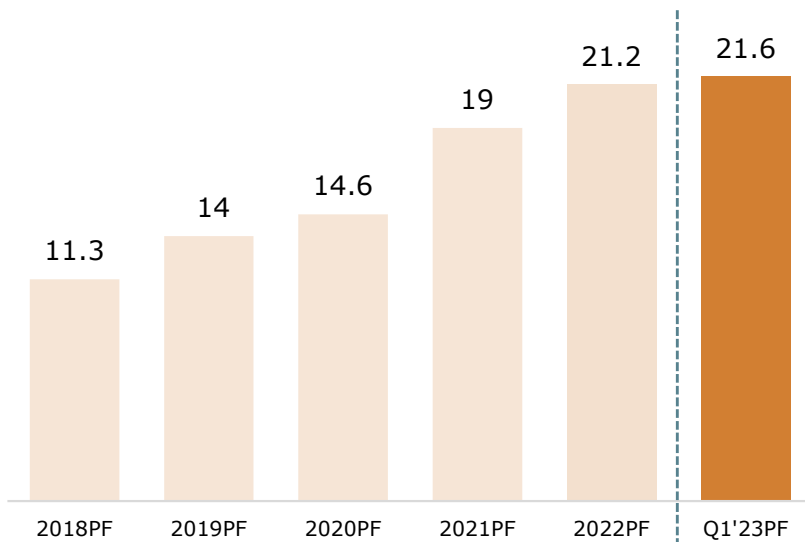

# FPAUM and Average Fee Rate Detail

Robust organic FPAUM growth and stable, attractive fee rates

## ORGANIC FPAUM GROWTH<sup>1</sup> (\$Bn)

← 16% CAGR →

### Organic FPAUM Growth<sup>4</sup>

## AVERAGE FEE RATE<sup>2</sup> (Bps)

Average Q1'23 Actual Fee Rate: 106bps

Quarterly average fee rates show the basis points attributable to base management fees and catch-up fees<sup>3</sup>. For 2023, we expect the average fee rate to be 105bps.

### Average FPAUM (\$Bn)

### NOTES:

- Organic FPAUM is calculated on a pro forma basis assuming the acquisitions of WTI, Five Points, TrueBridge, Enhanced, Bonaccord, and Hark were completed as of January 1, 2018.
  - The average fee rates shown in the graph are calculated as actual average FPAUM as a quotient of actual revenue.
  - Catch-up fees are earned from investors that committed during the fundraising period of funds originally launched in prior periods, and as such, the investors are required to pay a catch-up fee as if they had committed to the fund at the first closing. While catch-up fees are not a significant component of our overall revenue stream, they may result in a temporary increase in our revenues in the period in which they are recognized.
  - Q1'23 organic FPAUM growth is the pro forma FPAUM growth from Q1'22 to Q1'23.
- Note: "PF" refers to calculations made on a pro forma basis. "A" refers to calculations made on an actual basis.

# Organic Fee Paying AUM Growth Model<sup>1</sup>

Long-term, contractually locked-up funds ensure highly sticky FPAUM base

## BREAKDOWN OF FPAUM FLOWS

Increase/Decrease	Impact	Description	Increase/Decrease	Impact	Description
Capital Raised	↑↑	Represents new commitments to funds that earn fees on a committed capital fee base.	Scheduled Fee Base Stepdowns <sup>3</sup>	↓	Contractual reduction in fee-based timing known at outset of vehicle launch. Most vehicles do not change the charging basis from committed to invested capital upon stepdown.
Capital Deployed	↑	In certain vehicles, fees are based on capital deployed, as such increasing FPAUM.	Fee Period Expirations <sup>3</sup>	↓	Decreases in FPAUM due to fund expirations.
NAV Change <sup>2</sup>	—	NAV change consists primarily of the impact of market value appreciation (depreciation) from vehicles that earn fees on a NAV basis.			

### NOTES:

- Organic FPAUM on a pro forma basis assumes the acquisitions of WTI, Enhanced, TrueBridge, Bonaccord and Hark were completed as of January 1, 2020.
- NAV change impact on P10's overall FPAUM is de minimis. For simplicity, the NAV change impact on FPAUM is grouped with the Stepdown and Expiration amounts.
- Decreases in FPAUM from fee based stepdowns and expirations are combined with NAV changes in the above graph. FY 2021 Stepdowns and Expirations were \$30 million and \$269 million, respectively. In the trailing twelve months, Stepdowns and Expirations totaled \$1.26Bn. Furthermore, we expect an additional \$830 million in stepdowns and expirations in the remainder of 2023.

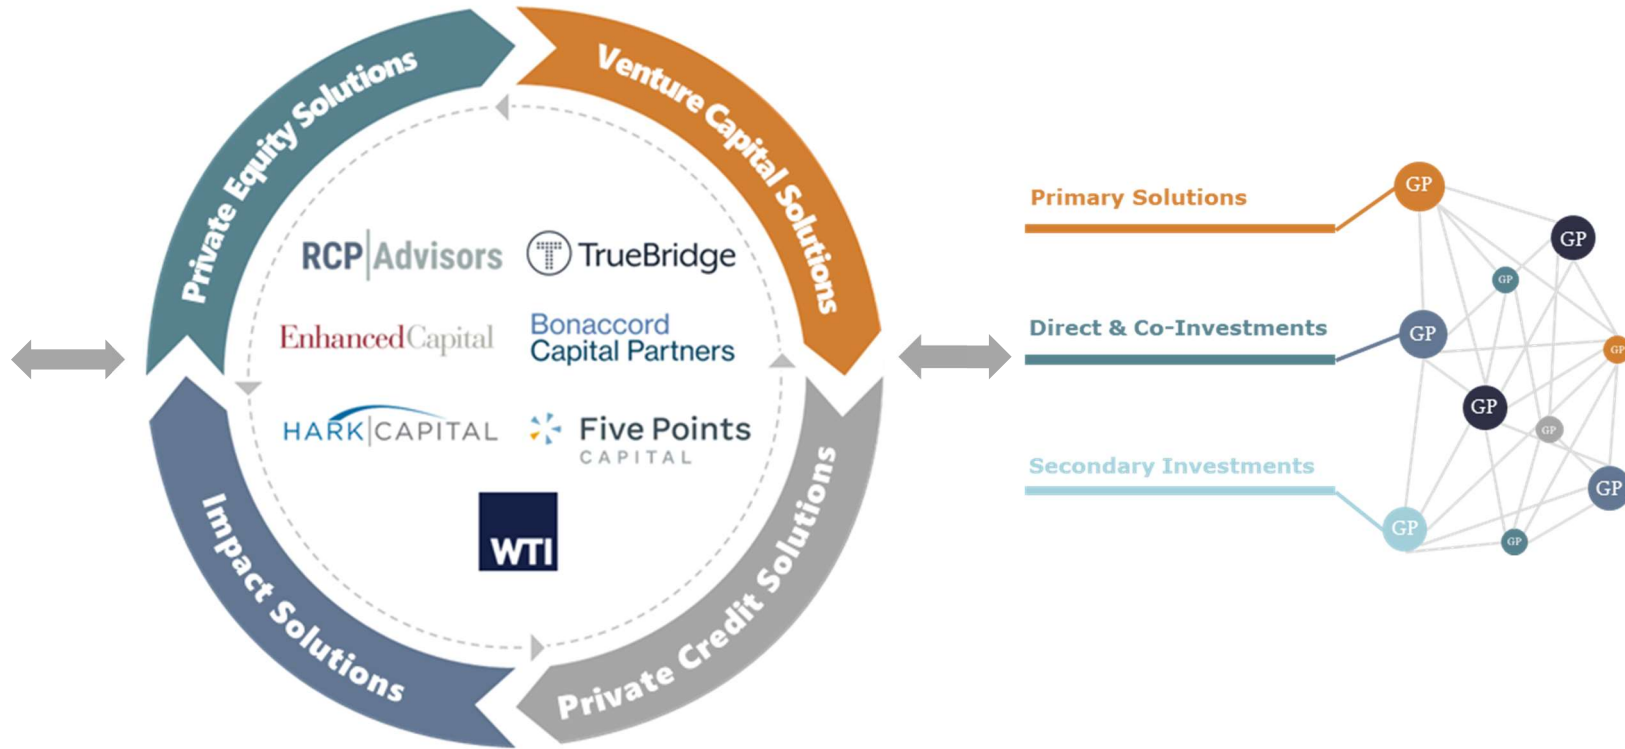

# Private Markets Ecosystem

Premier private markets solutions provider

P10 is a specialized private market solutions provider. As LPs entrust us with capital, we strengthen our relationships with high performing, difficult-to-access fund managers. These relationships drive additional investment opportunities, source more data, enable portfolio optimization, enhance returns, and in turn, attract new LPs. Our position within the private markets ecosystem is reinforced by our synergistic multi-asset class solutions, extracting sourcing opportunities from our vast network of GPs and portfolio companies.

## Limited Partners (LPs)

Fully diluted ANI per share <sup>(1)</sup>	\$ 0.21	\$ 0.18	17%

Above is a calculation of our unaudited non-GAAP financial measures. These are not measures of financial performance under GAAP and should not be construed as a substitute for the most directly comparable GAAP measures, which are reconciled in the table above. These measures have limitations as analytical tools, and when assessing our operating performance, you should not consider these measures in isolation or as a substitute for GAAP measures. Other companies may calculate these measures differently than we do, limiting their usefulness as a comparative measure.

We use Adjusted Net Income, or ANI, as well as Adjusted EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) to provide additional measures of profitability. We use the measures to assess our performance relative to our intended strategies, expected patterns of profitability, and budgets, and use the results of that assessment to adjust our future activities to the extent we deem necessary. ANI reflects our actual cash flows generated by our core operations. ANI is calculated as Adjusted EBITDA, less actual cash paid for interest and federal and state income taxes.

In order to compute Adjusted EBITDA, we adjust our GAAP Net Income for the following items:

- ✓ Expenses that typically do not require us to pay them in cash in the current period (such as depreciation, amortization and stock-based compensation)

- ✓ The cost of financing our business
- ✓ Non-Recurring Transaction Fees include the following:
  - Acquisition-related expenses which reflect the actual costs incurred during the period for the acquisition of new businesses, which primarily consists of fees for professional services including legal, accounting, and advisory;
  - Registration-related expenses include professional services associated with our prospectus process incurred during the period, and does not reflect expected regulatory, compliance, and other costs which may be incurred subsequent to our Initial Public Offering, and the effects of income taxes.

Adjusted Net Income reflects net cash paid for federal and state income taxes. In the first quarter of 2022 the Company received a state tax refund of \$353,000, thus increasing Adjusted Net Income.

(1) Fully Diluted ANI EPS calculations include the total of all common shares, stock options under the treasury stock method, restricted stock awards, and the redeemable non-controlling interests of P10 Intermediate converted to Class B stock as of each period presented.

# Tax Assets

Combination of intangible assets, goodwill, and NOLs generating sustained, long-term tax benefits

## LONG-TERM TAX BENEFITS

Tax Assets

## COMMENTARY

- ✓ Tax basis intangible assets and tax-deductible goodwill—which are more than half of our tax assets—are available to reduce federal income tax ratably over fifteen years.
- ✓ Currently, tax amortization relates to goodwill and intangibles acquired in tax years 2017 – 2022.
- ✓ Management plans to pursue disciplined growth through acquisitions, which creates a step-up in basis that will likely generate additional intangibles and goodwill amortization that provides an additional federal and state tax deduction over fifteen years.
- ✓ Federal NOLs are generally expected to be fully utilized before expiration.
- ✓ With annual tax amortization and the use of the remaining NOL balance, the Company anticipates federal taxable income at \$0 for several years.<sup>2</sup>

### NOTES:

1. Goodwill and intangibles remaining tax amortization is the goodwill and intangibles balance net of tax amortization deducted from inception through December 31, 2022. On a tax basis, the potential \$70 million earnout attributable to the WTI acquisition will be included in goodwill & intangibles when paid.
2. While we anticipate \$0 of federal taxable income for several years, we will have some state and local income taxes.

# Highly Compelling Value Proposition

Attractive investment thesis

## MEANINGFUL PARTNERSHIPS

- ✓ Premier, specialized private markets solutions provider operating in **large and growing** markets with **increasing investor allocations**

## SUPERIOR TRACK RECORD

- ✓ Attractive and growing revenue base with **highly recurring** and **well diversified revenue and strong margins**

## UNRIVALED ACCESS

- ✓ Highly recurring revenue composed **almost entirely of management and advisory fees** earned primarily on committed capital from long-term, contractually locked up funds

## DEEP TALENT

- ✓ Experienced **management team** with **significant insider ownership, proven M&A track record**, and supported by a deep bench of investment talent

## DATA ADVANTAGE

- ✓ **Strong investment performance** across private markets driven by experience, investment process, and **data advantage** supporting the ability to grow and attract future funds

## Key Terms & Supplemental Information

Below is a description of our unaudited non-GAAP financial measures. These are not measures of financial performance under GAAP and should not be construed as a substitute for the most directly comparable GAAP measures. These measures have limitations as analytical tools, and when assessing our operating performance, you should not consider these measures in isolation or as a substitute for GAAP measures. Other companies may calculate these measures differently than we do, limiting their usefulness as a comparative measure.

### FEE PAYING ASSETS UNDER MANAGEMENT (FPAUM)

FPAUM reflects the assets from which we earn management and advisory fees. Our vehicles typically earn management and advisory fees based on committed capital, and in certain cases, net invested capital, depending on the fee terms. Management and advisory fees based on committed capital are not affected by market appreciation or depreciation.

### ADJUSTED EBITDA

- ✓ In order to compute Adjusted EBITDA, we adjust our GAAP net income for the following items:
  - Expenses that typically do not require us to pay them in cash in the current period (such as depreciation, amortization and stock-based compensation);
  - The cost of financing our business;
  - Acquisition-related expenses which reflects the actual costs incurred during the period for the acquisition of new businesses, which primarily consists of fees for professional services including legal, accounting, and advisory, as well as bonuses paid to employees directly related to the acquisition;
  - Registration-related expenses includes professional services associated with our prospectus process incurred during the period, and does not reflect expected regulatory, compliance, and other costs associated with which may be incurred subsequent to our Initial Public Offering; and
  - The effects of income taxes

### ADJUSTED NET INCOME (ANI):

- ✓ We use Adjusted Net Income, or ANI, as well as Adjusted EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization) to provide additional measures of profitability. We use the measures to assess our performance relative to our intended strategies, expected patterns of profitability, and budget and use the results of that assessment to adjust our future activities to the extent we deem necessary. ANI reflects our actual cash flows generated by our core operations. ANI is calculated as Adjusted EBITDA, less actual cash paid for interest and federal and state income taxes.

**FULLY DILUTED ANI EPS** Fully diluted Adjusted Net Income Earnings Per Share is a calculation that assumes all the Company's securities were converted into shares, not just shares that are currently outstanding.

**NET IRR** Refers to Internal Rate of Return net of fees, carried interest and expenses charged by both the underlying fund managers and each of our solutions.

**NET ROIC** Refers to return on invested capital net of fees and expenses charged by both the underlying fund managers and each of our solutions.

**FUND SIZE** Refers to the total amount of capital committed by investors and, when applicable, the U.S. Small Business Administration to each fund disclosed.

**CALLED CAPITAL** Refers to the amount of capital provided from investors, expressed as a percent of the total fund size.

**PF** Refers to "pro forma" and indicates a number that was adjusted from actual.

**A** Refers to "actual" and indicates a number that is unadjusted.

**SUPPLEMENTAL SHARE INFORMATION** Class A shares (CUSIP # 69376K106) trade on the NYSE as PX and have one vote per share. Class B shares (CUSIP # 69376K205) are not tradeable in the open market and have ten votes per share. The Class B shares are convertible at any time at the option of the holder into Class A shares on a one-for-one basis, irrespective of whether or not the holder is planning to sell shares at that time. All previous shareholders of P10 Holdings, Inc. (OTC: P10E) had their shares converted to Class B shares of P10 at the time the Company was listed on the NYSE. The simplest way to sell Class B shares is to first contact your broker and convert them to Class A shares, which can then be sold on the NYSE. Further note that Class B shares held by P10 insiders are under a lock up agreement. Please refer to our amended and restated certificate of incorporation for a full description of the Class A and Class B shares.

**OWNERSHIP LIMITATIONS** P10's Certificate of Incorporation contains certain provisions for the protection of tax benefits relating to P10's net operating losses. Such provisions generally void transfers of shares that would result in the creation of a new 4.99% shareholder or result in an existing 4.99% shareholder acquiring additional shares of P10.

# Disclaimers

## PERFORMANCE DISCLAIMER

The historical performance of our investments should not be considered as indicative of the future results of our investments or our operations or any returns expected on an investment in our Class A common stock.

In considering the performance information contained in this prospectus, prospective Class A common stockholders should be aware that past performance of our specialized investment vehicles or the investments that we recommend to our investors is not necessarily indicative of future results or of the performance of our Class A common stock. An investment in our Class A common stock is not an investment in any of our specialized investment vehicles. In addition, the historical and potential future returns of specialized investment vehicles that we manage are not directly linked to returns on our Class A common stock. Therefore, you should not conclude that continued positive performance of our specialized investment vehicles or the investments that we recommend to our investors will necessarily result in positive returns on an investment in our Class A common stock. However, poor performance of our specialized investment vehicles could cause a decline in our ability to raise additional funds and could therefore have a negative effect on our performance and on returns on an investment in our Class A common stock. The historical performance of our funds should not be considered indicative of the future performance of these funds or of any future funds we may raise, in part because:

- ✓ market conditions and investment opportunities during previous periods may have been significantly more favorable for generating positive performance than those we may experience in the future;
- ✓ the performance of our funds is generally calculated on the basis of net asset value of the funds' investments, including unrealized gains, which may never be realized;
- ✓ our historical returns derive largely from the performance of our earlier funds, whereas future fund returns will depend increasingly on the performance of our newer funds or funds not yet formed;
- ✓ our newly established funds typically generate lower returns during the period that they initially deploy their capital;
- ✓ changes in the global tax and regulatory environment may affect both the investment preferences of our investors and the financing strategies employed by businesses in which particular funds invest, which may reduce the overall capital available for investment and the availability of suitable investments, thereby reducing our investment returns in the future;
- ✓ in recent years, there has been increased competition for investment opportunities resulting from the increased amount of capital invested in private markets alternatives and high liquidity in debt markets, which may cause an increase in cost and reduction in the availability of suitable investments, thereby reducing our investment returns in the future; and
- ✓ the performance of particular funds also will be affected by risks of the industries and businesses in which they invest.

## ENHANCED CAPITAL PERFORMANCE DISCLOSURES:

- ✓ Performance information shown for deal activity from 05/06/02 through 12/31/22. All investments bear the risk of loss. Past performance is not indicative of future results. All statistics exclude "Outreach Deals" which are transactions that Enhanced executes for pure impact, without expectation of financial return. A list of these deals is available upon request.
- ✓ Total Blended Net is hypothetical and assumes .75x leverage, leverage cost of 4% per annum from 2002 through 2021 and 5% in 2022, 1.5% management fee on capital deployed, 45% leverage paydown per period, based on available cashflow, 15% carried interest above 7% hurdle with an 80% carry catch up. The unrealized component of the returns is based on the 12/31/22 fair value of the investment and assumes liquidation at that FMV on 1/01/23. Excludes fund-level professional fees. An investor's return will be reduced by the fees and expenses incurred by their account or the private fund in which they invest. Actual returns may differ materially.
- ✓ Impact Equity excludes Low-Income Housing Tax Credits and New Markets Tax Credits which are not offered to non-bank investors.
- ✓ Historic Tax Credit deals with a 1-year credit assume a 0% Management Fee and a 30% Profit Share. Historic Tax Credit deals with a 5-year credit assume a 0.5% Management Fee and a 20% Profit Share. IRRs for Historic Tax Credit transactions are not recorded as the credits trade at a discount to par. The IRRs reflected only represent Renewable Energy Tax Credit transactions and are the product of a very short hold period. All investments bear the risk of loss. Risks include recapture due to lack of following program compliance rules. Investments in tax credits are not securities investments and returns shown do not reflect a return achieved on investment securities. An investor's return will be reduced by the fees and expenses incurred by their account or the private fund in which they invest.

# Disclaimers

## RCP ADVISORS PERFORMANCE DISCLOSURES:

- ✓ The historical returns of RCP Advisors are not necessarily indicative of the future performance of a Fund and there can be no assurance that the returns described herein or comparable returns will be achieved by any Fund.
- ✓ Performance metrics are presented for the limited partners of each respective Fund as a single class, taken as a whole. Certain limited partners, who have met specific requirements, may have different preferred returns, as well as different carry percentages. In addition, the General Partner of each Fund may agree to reduce the management fees for certain limited partners in accordance with the applicable Fund's Partnership Agreement.
- ✓ The actual performance returns of each investor may vary and are dependent upon the specific preferred return hurdles, management fees, and carried interest expense charged to such investor and the timing of capital transactions for such investor.
- ✓ Performance Metrics (Highest Fee Rate).
- ✓ ROIC: Represents the return on invested capital of a "representative investor" in a particular Fund. ROIC is calculated by dividing the sum of the representative investor's distributions plus capital balance by capital contributed. Representative investor's capital balance is the book assets (fair value of unrealized investments plus cash on hand and miscellaneous assets) less the liabilities at the measurement date.
- ✓ D/PI: Calculated by dividing a representative investor's cumulative distributions by the sum of capital contributions.
- ✓ IRR: Represents the internal rate of return of a "representative investor" in a particular Fund. IRR is a time-weighted average expressed as a percentage. The IRR of an investment is the discount rate at which the net present value of costs (negative cash flows) of the investment equals the net present value of the benefits (positive cash flows) of the investment, including the current value of unrealized investments.
- ✓ Net Performance Metrics (Highest Fee Rate). Net ROIC, Net D/PI, and Net IRR reflects the return of a "representative investor" in a particular Fund that: (i) is in good standing; (ii) where more than one investment vehicle is established to accommodate investors with different tax and/or regulatory requirements, invested in such Fund via the Delaware "onshore" vehicle; (iii) subscribed at the earliest closing in which unaffiliated LPs paying the highest level of fees and expenses (including, without limitation, management fees, carried interest and, in the case of certain earlier vintage RCP Funds, "due diligence fees," if applicable) chargeable to an investor in such Fund were admitted; (iv) is not affiliated with the Fund's general partner; and (v) is/was not excused or excluded from any underlying investments made by such Fund.
- ✓ The historical returns of RCP Advisors are not necessarily indicative of the future performance of a Fund and there can be no assurance that the returns described herein or comparable returns will be achieved by any Fund.
- ✓ The actual performance returns of each investor may vary (in some cases, materially) and are dependent on a number of factors including, but not limited to, (a) the timing of an investor's capital contributions, including as a result of a later subscription date and lower preferred return, (b) differences in fees or expenses allocable to certain investors as a result of taxes or other considerations, (c) the fact that certain investors may have negotiated reduced, waived or otherwise modified management fee and/or carried interest rates with the Fund's general partner, and (d) the excuse or exclusion of an investor from one or more of such Fund's investments. Accordingly, the actual performance of an individual investor may differ from the returns presented herein.
- ✓ RCP Fund Performance Data – Selection Criteria. The tables on slides 6 and 7 herein reflect the past performance of RCP's commingled (i) funds-of-funds\* and dedicated secondary funds which are at least 50% funded (in the aggregate) at the underlying investment level and (ii) dedicated co-investment funds which have called at least 50% of capital commitments at the RCP Fund level; accordingly, certain other investment vehicles (including discretionary and non-discretionary separate accounts) which RCP has sponsored, advised, or sub-advised have been excluded. \*Because Fund XIV is 45% funded (in the aggregate) at the underlying investment level (as of 9/30/22), but is expected to exceed the 50% funded threshold in the near-term, Fund XIV performance returns are also included. Performance information for RCP's later vintage-year funds is not included in the performance tables contained herein; RCP believes that the results are not yet meaningful, and analysis of later vintage fund data may be irrelevant. Performance metrics are preliminary, estimated and subject to change.
- ✓ RCP SEF Performance. Because RCP's inaugural "small and emerging manager" fund (which was structured using two distinct parallel investment vehicles – RCP Small and Emerging Fund, LP ("SEF (Main)") and RCP Small and Emerging Parallel Fund, LP ("RCP SEF Parallel") – only accepted commitments from two unaffiliated (anchor) investors, the performance returns of SEF (Main) and RCP SEF Parallel contained herein reflect fee/carry rates not typically associated with RCP's commingled funds (specifically, unaffiliated investors in such vehicles pay 0% management fees and 10% carried interest). The SEF (Main) and RCP SEF Parallel returns would be reduced by the effect of typical management fees charged to investors in RCP's commingled funds. Performance information for RCP SEF Parallel is not included in the performance tables contained herein. As of 9/30/22, RCP SEF Parallel has a Net IRR of 26.7%, Net ROIC of 1.9x, and Net D/PI of 0.50.
- ✓ Direct Fund Performance. With limited exceptions, Direct Funds generally do not pay third-party management fees since the Direct Funds invest directly (or indirectly through special purpose vehicles) in equity investments and not in other private equity funds. The Direct Fund returns would be reduced by the effect of typical third-party management fees charged to RCP's commingled primary and secondary funds.
- ✓ Max Out-of-Pocket. Refers to the amount of capital that an LP has contributed to the fund as of a specified date. As an example, for an LP capital commitment of \$10 million to a particular RCP Fund with a max-out-of-pocket exposure of 55%, the investor has contributed \$5.5 million of out-of-pocket capital to date and the remaining \$4.5 million was funded by early liquidity and distributions from that Fund. Performance metrics are preliminary, estimated and subject to change.

# Disclaimers

## RCP ADVISORS PERFORMANCE DISCLOSURES (CONTINUED):

- ✓ Realized vs. Unrealized Investments. The fund-level Net IRR and Net ROIC calculations used herein measure the actual value of realized investments and estimated fair value of unrealized investments (as reported to RCP by the general partners of the underlying investments), which involves significant elements of subjective judgment and analysis. There can be no assurance that unrealized investments will be realized at the valuations used to calculate the Net IRRs and Net ROICs contained herein, and additional fund expenses and investment related expenses to be incurred during the remainder of a particular Fund's term remain unknown and, therefore, are not factored into the Net IRR and Net ROIC calculations. Any anticipated carried interest reduces the net returns of unrealized investments. Calculations used herein which incorporate estimations of the net "unrealized value" of remaining investments represent valuation estimates made by RCP using the most recent valuation data provided by the general partners of the underlying investments. Such estimates are subject to numerous variables which change over time and therefore amounts actually realized in the future will vary (in some cases materially) from the estimated net "unrealized values" used in connection with calculations referenced herein.
- ✓ Effects of Leverage on IRRs. Because RCP typically utilizes a subscription-based credit facility to bridge capital calls for its commingled Funds, many investments have been initially funded using a subscription line of credit. For purposes of the fund-level Net IRR calculation, the use of a subscription line of credit increases the IRR (in situations where the IRR is positive), as the IRR calculation takes into account the amount of time capital is outstanding and is based upon the capital call due date, rather than the date the relevant Fund made the underlying investment with borrowed funds. Accordingly, the related delay of capital calls will increase the fund-level Net IRR reflected herein (in some cases, materially).
- ✓ Past performance does not predict, and is not a guarantee of, future results. RCP's investment strategy is subject to significant risks and there is no guarantee that any RCP Fund will achieve comparable results as any prior investments or prior investment funds of RCP. The performance information presented above reflects 9/30/22 cash flows with 9/30/22 underlying investment valuations unless stated otherwise. Performance metrics are preliminary, estimated and subject to change. Performance information for RCP's later vintage-year funds is not included in the performance tables contained herein; RCP believes that the results are not yet meaningful, and analysis of later vintage fund data may be irrelevant. 1. The Fund is fully liquidated.(Fund I, Fund II, Fund III) 2. Currently investing.(SEF II, Multi strategy, Fund XVII) 3. Includes approved and closed deals. Latest data available. 4. As of 12/31/22.(Fund XVII) Note: Please see the endnotes as well as additional important disclosures and explanatory notes contained herein for details regarding fund metrics and performance information, including the "Net Performance Metrics (Highest Fee Rate)" and "Net Performance Metrics (Blended Fee Rate)" calculation methodologies.

## RCP ADVISORS PERFORMANCE DISCLOSURES (CONTINUED):

- ✓ Past performance does not predict, and is not a guarantee of, future results. RCP's investment strategy is subject to significant risks and there is no guarantee that any RCP Fund will achieve comparable results as any prior investments or prior investment funds of RCP. The performance information presented above reflects 9/30/22 cash flows with 9/30/22 underlying investment valuations unless stated otherwise. Performance metrics are preliminary, estimated and subject to change. Performance information for RCP's later vintage-year funds is not included in the performance tables contained herein; RCP believes that the results are not yet meaningful, and analysis of later vintage fund data may be irrelevant. 1. Currently investing.(Direct IV) 2. Includes approved and closed deals. Latest data available. 3. As of 12/31/22.(SOF IV) Note: Please see the important disclosures and explanatory notes contained herein for details regarding RCP fund metrics and performance information, including the "Net Performance Metrics (Highest Fee Rate)" and "Net Performance Metrics (Blended Fee Rate)" calculation methodologies.

# Disclaimers

## HARK PERFORMANCE DISCLOSURES:

- ✓ ROIC: Represents the return on invested capital. ROIC is calculated by dividing the sum of distributions plus total partners' capital by capital contributed. Total partners' capital balance is the book assets (fair value of unrealized investments plus cash on hand and miscellaneous assets) less the liabilities at the measurement date.
- ✓ IRR: Represents the internal rate of return of the Fund. IRR is a time-weighted average expressed as a percentage. The IRR of an investment is the discount rate at which the net present value of costs (negative cash flows) of the investment equals the net present value of the benefits (positive cash flows) of the investment, including the current value of unrealized investments.
- ✓ Net ROIC, Net D/PI, and Net IRR: Reflects limited partner returns after allocation of management fees, general fund expenses, investment expenses, income earned on cash and cash equivalents, any carried interest to the general partner, and any other fees and expenses. Based on the highest applicable rate of management fees and carried interest to the general partner, as of 9/30/22, Hark II would have generated an 11.15% Net IRR and Hark III would have generated a 13.23% Net IRR.
- ✓ Not all limited partners pay the same management fee or carried interest. Furthermore, limited partners' IRRs may vary based on the dates of their admittance to the Fund. There can be no assurance that unrealized investments will be realized at the valuations used to calculate the ROICs and IRRs contained herein and additional fund expenses and investment related expenses to be incurred during the remainder of the Fund's term remain unknown and, therefore, are not factored into the calculations. Any anticipated Carried Interest reduces the net returns of unrealized investments. Calculations used herein which incorporate estimations of the net "unrealized value" of remaining investments represent valuation estimates made by RCP using the most recent valuation data provided by the general partners of the underlying funds. Such estimates are subject to numerous variables which change over time and therefore amounts actually realized in the future will vary (in some cases materially) from the estimated net "unrealized values" used in connection with calculations referenced herein. Past performance is not a guarantee of future results, and there can be no assurance that any fund will achieve comparable results.

## BONACCORD PERFORMANCE DISCLOSURES:

- ✓ Net Performance for Bonaccord Capital Partners I is determined assuming a limited partner was admitted at the first closing and is subject to a 2.0% management fee during the investment period and a 1.5% management fee thereafter, a 20.0% carry, an 8.0% preferred return, and a 1.2% expense ratio (determined by dividing (a) inception-to-date LP contributions attributable to expenses by (b) inception-to-date LP contributions). Certain investors were subject to lower management fee rates and/or carried interest, and accordingly experienced higher net returns.
- ✓ Bonaccord values its investments at estimated fair value as determined in good faith by Bonaccord. Valuations involve a significant degree of judgment. Due to the generally illiquid nature of the securities held, fair values determined Bonaccord may not reflect the prices that actually would be received when such investments are realized. The actual realized returns on unrealized investments will depend on, among other factors, future operating results and cash flows, future fundraising, the performance of the investment funds now existing or subsequently launched by the relevant sponsors, any related transaction costs, market conditions at the time of disposition and manner of disposition of investments, all of which could differ from the assumptions on which the valuations used in the performance data contained herein are based. Thus, the return for each such investment calculated after its complete realization most likely will vary from the return shown for that investment in this presentation. Similarly, the return for BCP I calculated after the complete realization of all of its investments most likely will vary from the return shown herein in the aggregate.
